Header	Definition			
NOAA ID	The NOAA- assigned unique identification number (NOAXXXXXXX) that stays with the animal for all time			
Acquisition Order #	Order in which an activity falls in the animal's record			
Acquisition	This refers to the action of obtaining an animal into a collection; may be through Birth, Capture from the wild, or a Transfer and/or Transport			
Animal ID	ID Number assigned by either the Owner or Facility			
Name	Name assigned by either the Owner or Facility			
Sex	The sex of the subject animal			
Species	The common name of the species			

Birth Date	The actual or estimated birth date of the animal			
Birth Date Certainty	Identifies the Birth date as actual, estimated, or unknown			
Captivity Date	The date the origin activity occurred (i.e. birth, capture, or stranding)			
Custody Date	The date the Owner took custody (ownership) of the animal			
Owner	Person or institution with legal custody of the animal			
Facility Date	Date the animal was received by the Facility (arrived at location)			
Facility	Name of the physical location (institution) where the animal is held			

Purpose	Purpose the animal is being maintained in captivity (MMPA special exception)			
Permit No.	Permit Number associated with the activity and purpose, if applicable			
Status	Indicates the current status of the animal (alive, dead, or released)			
Status Permit No.	Permit Number associated with the current status, if applicable			
Status Date	Date that the animal died or was released, if applicable			
Death Cause (Comment, if any)	Primary cause of Death of the animal and text from the Death cause comment box (if any)			
Depleted?	Identifies the MMPA status of an animal (via species)			

Endangered?	Identifies the ESA status of an animal (via species)			
ESA/Depleted Comments	Comments/ notes regarding the ESA or MMPA status of an animal. This should be the stock or distinct population unit of the animal.			

<p>Disclaimer: NMFS relies on data self-reported by marine mammal Owners and Facilities. This data has gone through numerous database migrations, and therefore, errors may exist. Please note that there may be data that cannot be recovered or verified. NMFS does not verify the data and cannot provide any guarantee as to the accuracy, reliability, or completeness of information.</p>
